Portfolio | LinkedIn: awad-mohammed

Professional Summary

Performance-driven WordPress, Shopify, and Frontend Developer with 3+ years of experience engineering high-speed websites, custom WooCommerce solutions, bespoke Shopify stores, and React applications. Proficient in Shopify Liquid, React 19, Redux Toolkit, Tailwind CSS, PHP OOP, Firebase, and cloud deployments.

Education

Computer Engineering — Misr Higher Institute for Engineering and Technology Final Year Student
Expected Graduation: 2027

Technical Skills

- **WordPress & E-commerce:** Custom Themes, Custom Plugins, WooCommerce, Shopify (Liquid, Custom Storefronts), Custom Gutenberg Blocks, ACF, CPT, WPML, Elementor Pro
- **Frontend Development:** React 19, Redux Toolkit, Tailwind CSS, JavaScript (ES6+), HTML5/CSS3
- **Backend & Database:** PHP (OOP), REST API, MySQL, Firebase (Firestore, Auth)
- **Tools & Infrastructure:** Git, GitHub, VPS Provisioning (Hetzner), CyberPanel, Vite, Figma

Experience

WordPress Developer — Dev2Go 05/2025 - 01/2026

- Designed **Mivano Platform**, a custom bilingual WordPress interior design platform using Elementor Pro, capturing 25%+ more qualified leads.
- Implemented **EzzyRigs Marketplace**, featuring a custom PHP credit system deployed on a Hetzner VPS environment with real-time Discord notifications, processing over 500 transactions.
- Audited and refactored core codebases, resolving query bottlenecks to enhance Core Web Vitals and overall performance by 35%.

WordPress Developer — Khaleej Tech (UAE) 06/2023 - 02/2025

- Architected **Khaleej Tech Solutions**, corporate platform utilizing custom Gutenberg blocks, optimizing asset loading speed by 35% across corporate devices.
- Launched and maintained **The Sun Shop**, a bilingual WooCommerce store integrated with WPML and localized UAE payment systems, handling 1,000+ monthly visits.
- Customized WooCommerce checkout architectures and dynamic pricing workflows, reducing load times by 50%.

Freelance WordPress Frontend Developer 02/2023 - 05/2023 | 02/2026 - Present

- Engineered **PROCMS Application**, a real-time CMS platform leveraging React 19, Vite, Tailwind CSS, and Firebase, improving publishing workflow speed by 40%.
- Built **Tamayoz Store**, a custom WooCommerce platform featuring an HTML5 Geolocation API for seamless address auto-completion, boosting checkout conversions by 20%.
